Keras and deep learning on the Raspberry Pi. Today's blog post is a complete guide to running a deep neural network on the Raspberry Pi using Keras.. I've framed this project as a Not Santa detector to give you a practical implementation (and have some fun along the way).. In the first part of this blog post, we'll discuss what a Not Santa detector is (just in case you're unfamiliar ...

Wow, last week's blog post on building a basic motion detection system was awesome. It was a lot of fun to write and the feedback I got from readers like yourself made it well worth the effort to put together. For those of you who are just tuning it, last week's post on building a motion detection system using computer vision was motivated by my friend James sneaking into my refrigerator ...
